Look Out for These Features !

BLDC (or Brushless DC) motor fans are the future. These consume 70% less power and are more silent, more efficient & longer lasting compared to conventional AC motor fans. BLDC motor fans also come in smaller form factors making it aesthetically more desirable.

These models have the ability to rotate bi-directionally. ANTI-CLOCKWISE to give you normal cool air delivery(In Summer) and CLOCKWISE to give you a cozy-warm air circulation (In Winter).

These models smartly adapt its speed based on the room temperature. The fan speed adjusts according to the increase and decrease of the room temperature.

The ability to sense the presence of Humans, and smartly adjust the fan's oscillation or rotation. Fanzart's Humanoid is India's first fan with a human sensor.

These models oscillate horizontally as well as vertically delivering 3-dimensional air flow.

These models can be adjusted to oscillate at 60°,90°,180° and rotate at 360°, enabling oscillation to be set for 2,4,6 people and so on.

Summer Garden

Looking for a fan as exotic as your garden? Your search ends here! With palm-shaped ABS blades and a 3-pack LED kit, Fanzart presents Summer Garden. The 52 inch Summer Garden designed with a granite table around it is just what you need to sit around with your family and sip a cup of coffee or chill out with your friends. In addition to its magnificent design, the Summer Garden's IP-43 waterproofing system makes it the ultimate all-weather outdoor fan.

An Introduction to Fanzart's Brushless DC Motor Fans

BLDC (or Brushless DC) motor fans are the future. These consume 70% less power and are more silent, more efficient & longer lasting compared to conventional AC motor fans.

BLDC motor fans also come in smaller form factors making it aesthetically more desirable.
